-Spirit Day

-Homecoming parade at 2pm

### October 24th

-Saturday School

-Homecoming Dance

On Thursday, October 8th Mr. Zapien's Peer Leaders Uniting Students team put on a PLUS forum where students from a variety of backgrounds came together in one room. The goal of the forum was to build an understanding of the similarities and differences that are amongst students on our campus. With such vast diversity spread throughout our school, the "PLUS Forum" engaged students in activities in an effort to develop understanding and respect, ultimately breaking down some of the walls that students put up unconsciously as teenagers.

During the forum students were also invited to talk about issues on campus and in their community that impact their lives and had an opportunity to discuss possible solutions.

Here's a small sample of feedback we received from the students:

"It was really positive hearing other people wanting to change things. We can change our school positively."

"It was a lot of fun, and everyone understands each other."

"I found out I'm not the only one who was bullied. I learned that I can help change the school."

"Yes, it was [a positive experience] because it taught me how to be a better person. It gave me some good advice and I [made] 2 new friends."

"I got to meet new people and see that we all think the same."

"[The PLUS forum will benefit students at our school] because we can help everyone."

"The forum inspired me to get involved help others and to make the school a better place."

"I met new people I feel like I can trust them. It encouraged me to make a difference."

"It affected me by realizing others matter as much as you."

"Made me realize there are people like me in this school. Great experience to be able to socialize positively with others."

"It helped me realize how many problems everyone was going through."

"We can come together, unite, and make our school a better place."

We are looking forward to having one every Month.

# In Other News

APUSH we just finished up early democratic ideals and will begin looking at Manifest Destiny and Westward migration next week.

USH we are looking at Turn of the Century Big Business and Immigration, and how one affected the other.

Honors World History we are beginning explore the rise of the industrial revolution and its wide impacts on countries and people.

In French 1 we are learning to tell time. Students are able to translate time from English to French effortlessly.

In French 2 we are learning body parts and comparing healthcare in France to that of USA.

In French 3 we are learning French literature by George Sand. Students are comparing and contrasting 19th century superstitions and traditions, to that of modern time (i.e. Louisiana).
