SHS NEWS

It's the second week here at Soledad High School and the halls and classrooms are alive with students and staff getting into gear with their new classes. This past Wednesday we had yet another ipad deployment for the remaining students who's parents have not been able to attend our past meetings. Our staff has been doing an excellent job at being pro-active and suggesting new ways on how we can distribute ipads to all students. We are starting to make individual appointments for those incoming and current students whose parents need a dedicated time to pick up the ipads. Our teachers have gathered together with their departments and academies to gather data and evidence of our progress toward our very important WASC visit.

We have exciting news our new Mission and Vision, Student Learning Outcome posters have arrived! And they look amazing. Once again our remarkable staff did an exceptional job collaborating with each other on the posters. They were made up by our very talented WASC groups. Our astonishing design was created by Monica Santibanez and Aidee Aldaco, during the summer they worked meticulously with parents, teachers and students to vote which poster design we as a community liked the best. Our school counselors, have been working hard to support and care for all of our students doing a great job of getting all our students into the classes they need for graduation. Here is new information about this year's CAHSEE since it was not administered in July, as it has in previous years, because of legislation that is being pursued by the state would excuse the exit exam requirement for the Class of 2015 and the next three years. At this time we have put everything regarding CAHSEE on hold until we hear about the states decision on September 11th. This Friday we had our Williams Visit, classrooms were clean, and safe. We are looking forward to a wonderful school year and meeting all standards.

In Other News

This week in World History we analyzed sources using perspective, bias, credibility, and corroboration. We used these skills to evaluate primary and secondary sources.

This week in English 10 students took part in a metacognitive reading assessment; they created personal reading goals and reflections.

In addition, they practiced their close reading skills with a non-fiction article discussing security of online documents.

MR. Lang's Class

On Wednesday we had a very special event that went on in Mr. Langs SPED class. Ms. Aldaco along with MS.Adams, and NJROTC performed a mini rally to the entire class so they could have a feeling of how we do rally's at the school. The students had so much fun taking pictures with our Aztec mascot, ASB students delivered goodies, and they got the chance to play games.

ASB

On Wednesday we had a Club Carnival during lunch by the amphitheater. We had the following clubs available for students to stop by and see what they had to offer. Skills USA, Anime, French, MESA, Interact, Drama, Speech and Debate, AP, Hope Club, French.
